

SEDA products represent the ultimate in functionality and quality. Our many years of experience allow us to offer the right equipment for the specialist needs of vehicle dismantlers and recycling organisations.

The SEDA-MiniCutter with its electro hydraulic motor is the perfect tool to quickly & effortlessly cut through the thick electrical cable bundles found in scrap cars.

Maximise your returns from each End of Life Vehicle. Each scrap car contains between **10 - 20 kg** of valuable copper cables, most of which can be quickly removed using the SEDA-MiniCutter.

➤ **Order Information:**

➤ **N-50370 SEDA-MiniCutter Set,**

incl. Case, Charger and 2nd Battery pack

- **Cutting head 330° moveable**
- **optimised for one-hand using**
- **Quick-stop function**
- **Manually flyback on demand**
- **Auto flyback after cutting**
- **Multifunction diode for maintenance info and accu level control**

Light and compact with a 330 degree swiveling cutting head allows the cutter easy access to hard to reach places
15 kN of cutting force provides ample power to cut through even the thickest cable bundles with ease.

A fast 4 second cut cycle, 2 batteries and a 15 minute quick charge option allows for all day cutting. No cables or cumbersome external battery packs needed. Everything is contained within the one light weight unit.

- Ergonomic design for one handed use
- Suitable for aluminum or copper cables
- Includes safe instant stop function
- Jaws automatically return to the open position
- Manually return of Jaws if needed
- Multifunctional LED's indicate battery level or servicing requirements.

Technical Data:

Cutting force:	15 kN
Cutting sizes:	max. cable cord wired cables up to Ø 32mm (depends from cable types; like 4x50mm ² NYY) max. cable fine wired cables up to Ø 14mm (like HO7V-R 1x50mm ²)
Cutting time:	4 seconds
Weight:	1.8 Kg
Battery voltage:	9,6 V
Battery power:	2,0 Ah, approx. 100-110 cuts (HO7V-R1 x 240mm ² NYY)
Battery charging:	40 min. (15 min. with quick charging)
Ambient temperature:	-20°C bis +40°C

➤ Accessories:

- N-50372 Battery pack for SEDA-MiniCutter
- N-50373 Charger for SEDA-MiniCutter 230V
- N-50374 Charger for SEDA-MiniCutter 110V
