

*The SEDA-Rapid system. A simple, modern and flexible station designed for the mid size dismantler, to removing all fluids from end of life vehicles.*

With compact dimensions and the innovative SEDA drainage technology, the SEDA-Rapid fluid draining station represents a simple to install and simple to use end of life vehicle drainage station that is right up to date.

Individual air powered pumps, the impressive SEDA-Tank drilling machine and specialist tools allows simultaneous fluid removal saving you time and money.

CE, GS, TÜV and ATEX approved the SEDA-Rapid is designed to remove 98% of all liquids from up to 30 cars per day. With this state of the art equipment the SEDA-Rapid ensures a safe and efficient end of life vehicle draining.

- Air powered
- Extendable
- Very flexible
- Robust and quiet
- Easy handling
- Fast and efficient
- High quality
- Quick installation

The SEDA-Rapid fluid drainage station can be combined with a variety of different static, tilting or lifting ramps or can be built around your existing vehicle ramp. There are two system options you can choose:

## - SEDA-Rapid

Your individual SEDA-Rapid System. As example with wall or ground pump mounting. Or with a mobile SEDA-Tank drilling machine with only one swingarm.

*Please send us a request for an offer.*

## - SEDA-Rapid QI (Quick Install)

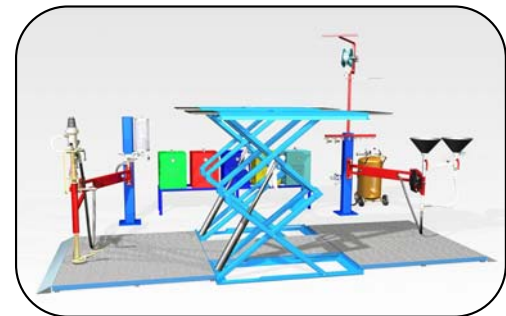

The SEDA-Rapid system complete pre-assembled with and prepared for easy installation.

A big benefit of the SEDA-Rapid (Quick Install) is the fact that it is 95% pre assembled at our factory which saves you time and money when installing.

## Technical details:

Air requirements	8,5 bar - > 1.600 liter/min
Consumption Evacuation	19.000 liter/car
Drainage time	8-12 min/car (depends on personal and vehicle ramp)
Fluid drainage	petrol (gas) 15 liter/min diesel 15 liter/min waste oil 5 liter/min coolant fluid 5 liter/min screen wash fluid 8 liter/min
Space requirements	6,9 meter length 3,5 meter width 4,3 meter height

## Including:

SEDA-Rapid fluid drainage station

- SEDA tank drilling machine
- 5 vacuum pumps for petrol (gas), Diesel, engine, gear, hydraulic oil & windscreen washer fluid
- Swing arms
- Vacuum chamber and special tools to remove brake fluid & coolant fluid
- Universal pressure caps to pressurize both break & coolant fluid allowing quicker and more through drainage.
